

# Preschool Kookaburras

In the Kookaburra Preschool Class we have been learning about **COLOUR**. We had special colour days where we wore the colour of the day. First was **Orange** day, then **Red** day, followed by **Pink** and **Purple** day and finally **Black** day.

**Life Cycle of a Butterfly** ~ following the observations of butterflies in our backyard, we began our investigations to find out more about them. The children learnt how the caterpillar changes into a butterfly and about the life cycle of a butterfly. Following our reading of lots of books about butterflies and caterpillars, we then drew our own 'Life Cycle of a Butterfly'. We made hairy caterpillars using cress seeds as part of our caterpillar craft too!
