

K-3H Visit The Big City!

We visited the Botanic Gardens and Opera House on August 4th and had a fantastic time! Many parent helpers, teachers and aides came along and together we learned so many exciting new things to help us understand our Term 3 Unit about Natural and Built Environments.

We walked all around the Botanic Gardens and the Opera House. We saw lots of bats and birds; a scarecrow and a rock house where the bats live. We rode on a red train all around the gardens. We saw the sea and lots of boats; people jogging, tall buildings and short buildings and lots of trees and animals.

We ate our lunch in the gardens near an amazing fountain shaped like a big ball. We sat on the Opera House steps, walked through all kinds of amazing

vegetation including native Australian plants and exotic plants from overseas. We had so much fun learning!
