

Spotlight on learning

KD has been exploring
natural and built
environments this
term.

During our excursion to
the city KD thoroughly
enjoyed playing in a
'natural' environment...
The Botanical Gardens.

KD observed built environments around them and admired the Sydney Harbour Bridge.

They have worked as a team to label environments as natural or built, in the school and on excursions.

They have enjoyed learning about the ways in which natural environments are different to built environments.

They should be commended for their efforts this term.
